PROFFESIONAL SUMMARY

Data Science and AI professional with hands-on experience in **machine learning, Generative AI, and applied analytics**. Worked on **Industry 5.0, LLM-based systems, and sustainability-focused AI solutions** through Microsoft Elevate and IBM SkillsBuild programs. Strong in **Python, SQL, Power BI, and modern AI tooling**, with the ability to translate real-world problem statements into data-driven and scalable technical solutions.

TECHNICAL SKILLS

- Programming** : Python, SQL
Generative AI : LLMs, Prompt Engineering, AI Agents
Data Analysis & BI: Power BI, Data Visualization, Exploratory Data Analysis (EDA)
Databases : PostgreSQL, MongoDB
Tools & Platforms: Git, Github, Docker, Jupyter, Azure AI Studio

EXPERIENCE

- Emerging Technologies Intern** Dec 2025 – Jan 2026
Microsoft Elevate Program (AICTE) Remote – India
- Delivered a **4-week Industry 5.0 project** applying AI-driven analytics to real-world industry problem statements
 - Built **Power BI dashboards** for insight extraction and explored **Azure AI Studio** and **Microsoft Copilot** for intelligent automation
- AI Intern** Dec 2025 – Jan 2026
1M1B (1 Million for 1 Billion) & IBM SkillsBuild Remote – India
- Applied **Generative AI, LLMs, and RAG** to sustainability-focused problem statements using **IBM Granite models**
 - Proposed scalable AI solution concepts through applied **machine learning fundamentals** in collaboration with IBM mentors

EDUCATION

- Dr. A. P. J. Abdul Kalam Technical University** Lucknow, India
Bachelor of Science in Computer Science (Data Science) August 2023 – May 2027

PROJECTS

- Customer Segmentation for Marketing ROI** [Source Code](#)
- Built an end-to-end **unsupervised ML** pipeline for customer segmentation on real-world marketing data
 - Engineered behavioral features and applied **PCA** to improve cluster quality and interpretability
 - Showed measurable relevance to **customer retention and marketing ROI**
- Neeva AI** [Live Demo](#)
- Built a full-stack **LLM-powered conversational app** using React, TypeScript
 - Implemented LLM routing via **Gemini** with prompt validation and rate limiting
 - Developed responsive UI with Tailwind and Radix; deployed via CI/CD

CERTIFICATIONS

- [Make Agentic AI Work for You – IBM SkillsBuild \(AI Agents, RAG, Multi-Agent Systems\)](#)
- [Oracle Cloud Infrastructure 2025 Certified Data Science Professional](#)
- [British Airways Data Science Job Simulation – Forage](#)
- [Python 101 for Data Science – IBM Cognitive Class](#)
